DE**Hinweise**

- Platzieren Sie das Akku-Safe Regal mit einem Abstand von mindestens 10cm entfernt von einer Wand oder anderen Gegenständen.
- Haube nur zum Be- und Entladen von Akkus und Geräten öffnen. Reißverschluss anschließend immer schließen.
- Ösen-Öffnungen an der Oberseite der Haube nicht verdecken.
- Zum Laden von Geräten das Stromkabel unter der Haube am Boden durchführen.
- Im Falle einer Entzündung des Akkus, entfernen Sie sich vom Regal und rufen Sie die Feuerwehr. **ACHTUNG: giftige Gase**

EN**Instructions**

- Place the battery-safe rack at least 10 cm away from a wall or other objects
- Only open the cover to load and unload batteries and devices. Always close the zipper afterwards.
- Do not cover the eyelet openings on the top of the hood.
- To charge devices, feed the power cable under the hood on the floor.
- If the battery ignites, move away from the rack and call the fire department. **CAUTION: toxic gases**

FR**Remarques**

- Placez l'étagère Akku-Safe à une distance d'au moins 10 cm d'un mur ou d'autres objets.
- N'ouvrir le capot que pour charger et décharger les accumulateurs et les appareils. Toujours fermer ensuite la fermeture éclair.
- Ne pas couvrir les ouvertures à œillets sur la partie supérieure de la hotte.

- Pour charger des appareils, faire passer le câble électrique sous la hotte, au niveau du sol.
- En cas d'inflammation de l'accumulateur, s'éloigner de l'étagère et appeler les pompiers. **ATTENTION : gaz toxiques**

Notas**ES**

- Coloque el estante seguro para pilas a una distancia mínima de 10 cm de una pared u otros objetos
- Abra la tapa sólo para cargar y descargar pilas y dispositivos. Cierre siempre la cremallera después.
- No cubra las aberturas de los ojales en la parte superior del capó.
- Para cargar aparatos, pase el cable de alimentación por debajo del capó, sobre el suelo.
- Si la batería se incendia, aléjese del bastidor y llame a los bomberos. **PRECAUCIÓN: Gases tóxicos**

Note**IT**

- Posizionare il ripiano salva-batterie ad almeno 10 cm di distanza da una parete o da altri oggetti.
- Aprire il coperchio solo per caricare e scaricare batterie e dispositivi. Chiudere sempre la cerniera dopo.
- Non coprire le aperture degli occhielli sulla parte superiore del coperchio.
- Per caricare i dispositivi, far passare il cavo di alimentazione sotto il cofano sul pavimento.
- Se la batteria si incendia, allontanarsi dal rack e chiamare i vigili del fuoco. **ATTENZIONE: gas tossici**
