

1

Visual Inspection

-
-
- Mat lies flat on the floor, no edges or creases
-
-
- No cracks, holes, or breaks
-
-
- No deformation or raised corners
-
-
- No loose edges or tripping hazards
-

2

Cleanliness

-
-
- Mat clean, free from dust, dirt, or liquids
-
-
- Wet areas dry or covered
-
-
- No residues of oil, chemicals, or other substances
-

3

Slip resistance

-
-
- Mat does not slip when stepped on
-
-
- Floor underneath dry and clean
-
-
- Mat stable under load and movement
-

4

Comfort/Load

-
-
- Thickness/cushioning still adequate for extended standing periods
-
-
- No signs of wear that increase fatigue
-

5

General condition

-
-
- Mat fully covers the designated area
-
-
- No foreign objects under the mat
-
-
- Combination with floor markings or safety measures in place
-

6

Corrective actions for deficiencies:

- ▶ Replace damaged mat immediately
- ▶ Fix or replace slipping mat
- ▶ Remove contamination immediately
