

Purpose of this download:

This guide helps to proactively address the most common cause of accidents in the workplace – with clear measures for everyday situations and special cases.

01

Why these risks are underestimated

- ▶ Habituation to existing situations
- ▶ Temporary solutions are accepted
- ▶ Time pressure leads to compromises

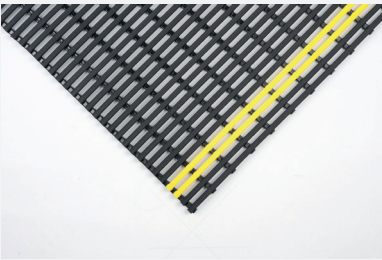

02

Typical risk locations

- ▶ Cleaning and wet areas
- ▶ Cables, hoses, and lines
- ▶ Transitions, thresholds, and steps
- ▶ Provisional work areas

03

Solutions by area of application

Anti-slip mats

- ▶ For permanently slip-prone areas
- ▶ Relief for standing workstations

Cable covers

- ▶ Safe routing of temporary lines
- ▶ Protection against tripping and damage

Ramps

- ▶ Compensating for height differences
- ▶ Safe crossing with trolleys and rolling stock

04

Prevention in everyday operations

- ▶ Regular visual inspections
- ▶ Clear cleaning and responsibility rules
- ▶ Immediate action instead of permanent provisional solutions
