Wide span boltless shelving units with moulded chipboard panels

- Easy and quick plug in assembly, because the upright frame is pre-assembled
- Can be used from both sides, as no cross brace is necessary
- Ideal adaptation to space requirements, as 2 bay widths, 4 shelf unit depths and 2 shelf unit heights are available

Material: sheet steel. Max. bay load: 2000 kg.
Max. shelf load: 250 kg. Shelf material: chipboard.
Shelf thickness: 16 mm.

External shelf unit dimensions

Standard shelf unit

Shelf width + 56 mm.

Extension shelf unit

Identical to the respective shelf width.

Overall upright frame depth

Shelf depth + 26 mm.

If the height of the shelf unit equals more than 5 times its depth, it must be secured against tipping with suitable floor or wall fasteners.

The specified max. load values are applicable with uniform load distribution. Additional shelves may be used if the specified max. bay load is observed.
