

Black steel wire mesh shelf units

- Always visually attractive, easy to care for and with clear visibility from all sides
- Infinitely extendable, also suitable as a room partition
- No memory effect for a temporary heavy load

Material: steel wire. Colour: black.

Please note

If the height of the shelf unit is more than 5 times its depth, the shelf unit must be secured against tipping.

The uprights reduce the effective width and depth of the shelves by 25 mm per upright.

The specified max. loads apply with uniform load distribution. Additional shelves may be used if the specified max. bay load or the max. load of the swivel castors is observed.
