

SEALKID film sealing devices

- Easy to use and cost effective
- Easy sealing and cutting of film pouches and sleeves
- With time limit switch and cutter

Type of use: desktop unit. Film thickness max.: 2 x 200 µm. For material: PVC / PP / PE. Application: composite films / bags / shrink films. Fittings: with cutting device. Voltage: 230 V.

Welding seam max.	mm	236 x 3	321 x 3	421 x 3
Length	mm	450	535	635
Width	mm	90	100	100
Height	mm	186	202	202
Power	watt	300	700	550
	Ref.	►523 980 3H	523 981 3H	►523 982 3H
	£	455.00	485.00	529.00

FUTURA PORTABLE hand sealing tongs

- For quick sealing of films

Type of use: desktop unit / handheld device. Length: 170 mm. Width: 180 mm. Height: 95 mm. Voltage: 230 V.

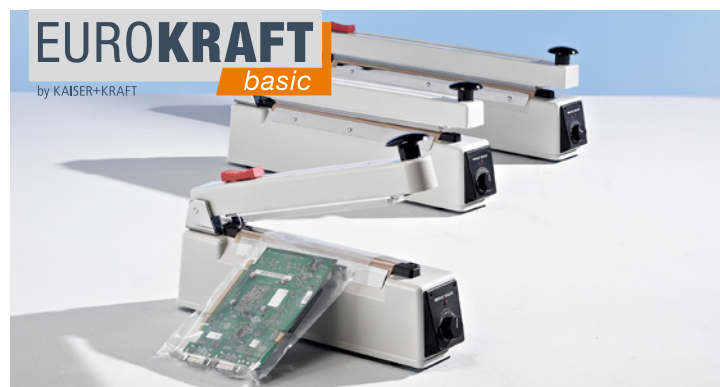

Film thickness max.: 2 x 150 µm. Welding seam max.: 150 x 2 mm. For material: PE / PP. Application: bags. Power: 35 watt.

Ref. 979 904 3H £ 201.00

MAGNETA film sealing devices

Type of use: standing unit / desktop unit. Film thickness max.: 2 x 150 µm. For material: PVC / PP / PE. Application: composite films / bags / shrink films. Fittings: with cutting device. Width: 190 mm. Height: 250 mm. Voltage: 230 V.

ECO impulse sealing devices

- Practical basic sealing device – easy operation
- The cutter allows bags of differing lengths to be manufactured from a tubular film
- With time switch

Type of use: desktop unit. Film thickness max.: 2 x 200 µm. For material: PE / thin OPP. Application: bags / shrink films. Fittings: with cutting device. Width: 110 mm. Voltage: 230 V.

Welding seam max.	mm	420 x 3	620 x 3
Length	mm	560	760
Power	watt	450	575
	Ref.	615 688 3H	615 689 3H
	£	919.00	1460.00

Welding seam max.	mm	200 x 2	300 x 2	400 x 2
Length	mm	410	510	620
Height	mm	220	230	220
Power	watt	350	500	750
	Ref.	►113 537 3H	►113 541 3H	►113 545 3H
	£	157.00	227.00	271.00

PE shrink films

- For sealing individual parts with different lengths

Material: polyethylene. Colour: transparent.
