## 1–6 | Designer glass cabinets

- High quality, silver anodised aluminium profiles, panels and doors made of 4 mm thick single pane safety glass, infinite shelf height adjustment
- With bevelled corners for an exclusive design, optionally available with or without lighting
- The bottom panel has been hollowed out to house concealed castors for mobile use, or to house a transformer for the optional low voltage lighting system

Glass material: single pane safety glass. Frame material: aluminium. Frame colour: silver anodised. Shelf material: single pane safety glass. Door thickness: 4 mm. Door type: single pane safety glass door. Lock type: security cylinder lock with 2 keys. Max. shelf load: 15 kg. Shelf thickness: 5 mm.

Designer glass cabinets are supplied flat pack.

The aluminium profiles are permanently attached to the safety glass panels at the factory. Units can be assembled/disassembled very quickly due to a new and simple plug and fixing concept. They are easily disassembled for storage and transport when not in use, which also means they are ideal for trade fairs and exhibitions. The packaging is reusable and can be kept for future transport or storage.

Alternative models available on request.
