

1–5 | Boltless shelving units with tubular shelves

- Particularly user friendly and versatile due to tubular steel shelves for bulky goods, providing a better overview of stored products and for rooms with sprinkler systems
- Double sided use possible, as cross braces are not required
- Manufactured in accordance with the guidelines and regulations of European FEM 10.2.06 as well as Eurocode III

Max. bay load: 2500 kg. Material: steel. Finish: plastic coated. Colour of uprights: light grey RAL 7035. Shelf height adjustment increments: 62.5 mm. Shelf colour: sky blue RAL 5015. Shelf finish: plastic coated. Shelf material: rectangular steel pipe. Width of upright profile: 50 mm. Depth of upright profile: 30 mm. Shelf unit design: double sided. Shelf unit fittings: without rear panel.

The specified max. load values are applicable with uniform load distribution.

Additional shelves may be used if the specified max. bay load is observed.
