With round base
Gas lift height adjustment from 650 – 850 mm
Seat rotates through 360° and can be tilted forward up to 10°.
Stable, extremely flat round base, Ø 470 mm.
Ref. 724 566-1H € 295.00

ESD model
Seat surface made of conductive self-skinning foam.
Otherwise as model described above.
Ref. 982 375-1H € 369.00

With folding base frame
Gas lift height adjustment from 640 – 840 mm
Seat rotates through 360° and can be tilted forward up to 13°.
The base frame also functions as a foot rest. Folds up quickly for space saving storage.
Ref. 982 418-1H € 299.00

Incremental height adjustment from 650 – 850 mm
Seat can be tilted forward up to 10°. Folds together quickly to save space.
Ref. 566 349-1H € 295.00

For medium duty requirements in production, warehouses and offices
Gas lift height adjustment
Our classic – decades of proven use in industry and trade

For heavy duty requirements in the factory and warehouse
Gas lift height adjustment
Practical carrying handle for changing locations quickly
ESD model for workstations in electronics areas etc.
