

Pallet trucks

Max. load 2500 kg

With entry and exit rollers – Euro pallets can be accessed from the short side or long side

- Premium quality
- Best price

A top class range of pallet trucks. Run easily and quietly. Single or tandem fork rollers.

Extremely reliable even in the toughest environments. Multiple reinforcements on frame and forks. Cast iron lifting joints.

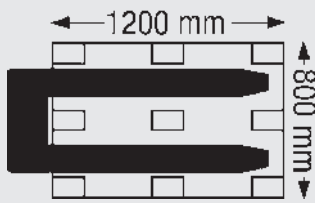

Closed, compact hydraulics in an aluminium housing. Durable pump mechanism. No protruding parts which could cause accidents. All parts can be replaced individually.

Handy pump and drawbar with multi-functional handle for lifting, transporting and lowering.

Encapsulated bearing with permanent lubrication. Positioning rollers in the tips of the forks facilitates lateral entry into pallets and crossing over door thresholds.

Powder coated in attractive, custom green colour.

Excellent transport and parking drum brake.

Suitable for EURO pallets

Distance across forks 525 mm

Fork length 1150 mm

Wheels

Solid rubber

Non-marking, ideal for smooth and rough floors. Quiet running, extremely durable, cannot be cut by metal chippings.

Polyurethane

Shock and vibration absorbent, hardwearing, non-marking. Particularly suitable for delicate floors.

Comfort drawbar handle

Easy entry with fork rollers
