

MAXIMUS scissor lift platform trucks

With additional safety features

quick lift – save effort and time!

from € **789,-**

1 Compact with folding push handle

Positioning aid

Safety release valve

Pedal positioned on the left for QuickLift

Pedal positioned on the right for heavy loads

Highest degree of safety and unique function

Hydraulic cylinder with **safety valve** directly on the cylinder. This prevents the platform from falling in case of failure.

Additional advantages:

The valve regulates the lowering speed.
Precise, responsive lowering possible with rotary knob.

Overload valve to protect against overloading.
Positioning aid to help centre load on platform.

Powder coated in pure orange RAL 2004 and black.
Safety warning stripes. Inspection supports.

2 steering wheels with wheel stops and foot protection,
2 fixed castors.

2 – 6 With patented QuickLift hydraulic cylinder.

QuickLift function available on lift tables in this class for the first time. This enables the empty lift table to be pumped into the raised position with minimal pedal strokes.

The pump pedal is rotated for heavy loads.
This enables heavier loads to be lifted with less effort.

1 With folding push handle.

6 With double scissor mechanism

Accessories

Roller conveyor

For working with heavy loads. Simply place on the platform and remove. Transported goods are secured at ends of conveyor with folding end stops.

Zinc plated rollers with sealed ball bearings.
