When installing doors, drawers or pull-out shelves, **please ensure that the unit is fixed to the wall or anchored to the floor.**

If the height of the shelving cupboard system is **more than 5 times its respective depth, wall or floor anchors must be used.**

As required, please order an anchoring kit for each **standard shelf unit** or **one pack for every 2 extension shelf units.**

Additional **safety information** is provided in the enclosed **assembly guide**.

All specified max. loads apply with uniform load distribution.

3–6 | Boltless shelf unit system

- Height adjustable shelves
- Easy plug-in assembly

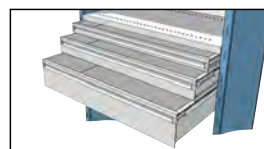

Max. shelf load: 150 kg. Max. bay load: 1200 kg. Design: plug in. Shelf width: 930 mm. Material: steel.

If the height of the shelf unit equals more than 5 times its depth, it must be secured against tipping with suitable floor or wall fasteners.

As required, please order an anchoring kit for each **standard shelf unit** or for **every 2 extension shelf units.**

Additional **safety information** is provided in the enclosed **assembly guide**.
