17–20 | Cantilever racking units

- With permanently welded cantilever arms
- All cantilever arms with roll-off protection

Shelf unit type: complete shelf unit. Design: welded. Shelf unit fittings: with cantilever arms of the same length. Upright height: 2000 mm. Max. cantilever arm load: 200 kg.

The max. load specifications apply with evenly distributed loads. The load centre should not be outside of the centre of the cantilever arms if the units are fully loaded.

Not suitable for use in environments with corrosive vapours. If the height of the shelf unit equals more than 5 times its depth, it must be secured against tipping with suitable floor or wall fasteners.
