## Boltless shelving unit for open fronted storage bins

- Max. shelf load 150 kg
- Max. bay load max. 1300 kg
- For well organised, compact storage
- Easy to assemble due to boltless plug-in connections
- Standard shelving units and extension shelving units of the same depth can be combined

Supplied with open fronted storage bins made of polyethylene (in different colours as shown) or with 5 shelves without bins. Zinc plated sheet steel frame and shelves.

It is necessary to reinforce every standard shelving unit and every other extension shelving unit with the supplied cross braces.

The specified max. load values are applicable with uniform load distribution. Additional shelf levels may be used if the specified max. bay load is observed.

For shelving units with depth of 336 mm, wall or floor anchoring must be provided.
