

FM safety cupboards

For the storage of flammable and water hazardous liquids according to FM (please observe country-specific regulations)

Robust, double door cupboards made of welded, double walled, powder coated sheet steel.

Easy closing, self-locking doors. Three point locking, can also be locked with a padlock. Reflective labelling. Adjusting device for levelling on uneven surfaces. Ventilation openings with flame trap, plug-in earth connection.

Interior fittings

Shelves, made of zinc plated sheet steel, height adjustable in 76 mm increments, max. shelf load 159 kg.

Base sump tray, seamlessly welded.

Blue cupboards with additional PE tray for use as sump tray on shelves or in base.

Cupboards with manual doors

The simple and cost effective solution. With manually operated doors. Doors open up to 180° for optimum access. When the door is manually closed, the three point lock is automatically activated.

Cupboards with self-closing doors

The safest solution for employees and rescue personnel in case of fire. Automatic self-closing doors (door soldering melts at 74 °C – open doors close automatically). Door stop system for easy storage and removal.

Cupboards in assorted colours

Colour coding for identification of the media stored inside, for example ...

Yellow cupboards

Water hazardous media

Blue cupboards

Corrosive media such as acids, alkalis etc.
