High pressure cleaners

Effortless cleaning of machines, work areas etc.

1 Cold water high pressure cleaner

For occasional use

K5 Full Control Home

With high power, water cooled motor. For medium heavy soiling at an area coverage of 40 m²/h. Extra sturdy due to low centre of gravity. Full Control Power Gun with pressure level display and practical accessory holder on the device. Effortless cleaning of machines, work areas, etc. Fully retractable for space saving storage.

Standard equipment

8 m high pressure hose, high pressure pistol, full control power gun, Vario Power steel tube, dirt grinder, integrated water filter, stone, facade and surface cleaner.

2 – 4 Professional cold water high pressure cleaner

For professional use

Ideal for frequently changing work sites. Compact design with low weight and additional carrying handle. Suitable for vertical and horizontal operation. Ergonomic easy-press hand spray gun, spray lance 850 mm, anti-twist system, automatic pressure relief, accessory holder on the device.

Standard equipment

Easy-press pistol, rotating stainless steel pipe 850 mm.

HD 5/11 P

Also includes a 10 m high pressure hose and single power nozzle (15°).

HD 6/15 M Plus

Also includes a 10 m high pressure hose, infinitely adjustable pressure and water flow rate, brass water intake, dirt blaster and three-angle nozzle (0°, 25°, 40°).

HD 6/15 MX Plus

Also includes a 15 m rotating (anti-twist) high pressure hose, infinitely adjustable pressure and water flow rate, brass water intake, hose drum with mounts on both sides, dirt blaster and three-angle nozzle (0°, 25°, 40°).

5 Hot water high pressure cleaner

For professional use

HDS 5/15 UX

Hot water high pressure cleaner. Ideal for frequently changing work sites and operating times of up to approx. 1 hour. Leakproof pump and fuel tank for horizontal transport. Low water indicator and exhaust temperature sensor. Max. temperature 80 °C. Heating oil consumption 2.4 kg/h.

Standard equipment

15 m high pressure hose, extended spray pistol, 550 mm stainless steel spray lance, three position angled nozzle.

Accessories

1 – 5 Rotating cleaning brush

Powered by the water jet. For the non-damaging removal of fine dust and grey films from all surfaces. Temperature resistant up to 80 °C.

Cup foam lance

2 – 5 Short, compact foam lance with 1 litre container for easy generation of foam.
