

# Recyclable waste collectors

## Recyclable waste container system

### With hand or foot operated access flap

- Made of zinc plated sheet steel or stainless steel
- Maintenance free, soft closing access flap
- Supplied with colour coded adhesive film set which also serves to protect the access flap
- Colour coding of the recyclables can also be changed at a later stage using coloured adhesive film
- Proven flame resistance with certificate, TÜV/GS tested
- With waste sack holder or zinc plated inner container. Tested, self-extinguishing inner container
- Easy to empty – lockable door
- All models can be combined with one another

Collector with inner container.  
Collector hood is permanently connected to body.  
The rounded shape prevents rubbish from being placed on top of collector. Handle and pedal made of stainless steel.  
Supplied complete with high quality adhesive film set for colour coding the access flaps.  
1 sticker each in sand yellow RAL 1002, pigeon blue RAL 5014, pale green RAL 6021 and charcoal RAL 7016.

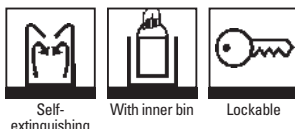

#### Sheet steel model

Zinc plated and additionally powder coated.  
Collector completely in grey aluminium/structured.

#### Stainless steel model

Body, hood and access flap made of high quality, brushed stainless steel.

Ideal for outdoor, hygienic and wet areas.
