

## Plastic barrier fencing

- Made of UV resistant plastic
- Quick set-up and breakdown
- Easy connection of individual sections

Can be used flexibly for fast and secure fencing for e.g. construction sites. Barriers for smaller areas are also easy to set up.

Does not conduct electricity.

10+ items	Ref.	517 395-2G	114 076-2G
	€ / each	149,-	149,-

With base plates (accessories)

### Accessories

#### Base plates

Made of recycled plastic.

Length x width x height 800 x 400 x 120 mm. Weight approx. 28 kg.

Ref. 517 404-2G € / each 39,90

#### Storage and transport racks

Secure and stable for 20 barrier sections. The rack is suitable for handling with a forklift or crane. Zinc plated, and therefore weather resistant. Weight 80 kg.

Ref. 517 405-2G € / each 469,-

Signal lights in red and yellow for single and double sided barriers on request.

## Barrier fencing

- Rotating feet are permanently attached to barrier fence
- UV resistant plastic (HDPE)

Does not conduct electricity. Individual sections connect together quickly using hook/eyelet connections, which also allow for easy compensation of slight differences in height.

Feet can be rotated to save space when transporting. In white or yellow polyethylene (HDPE), fitted with reflective film.
