Please note

When applying to substrates, drying time and adhesion should be tested first.

5 litre bucket for approx. 20 – 25 m².

On request, floor paint can also be supplied with non-slip quartz granules to R10 DIN 51130.

Please note

When applying to substrates, drying time and adhesion should be tested first.

5 litre bucket (= 3.9 litres paint + 1.1 litres hardener) for approx. 20 – 25 m².
