Company bicycle and scooters

Remain mobile while out and about!

- Complete with bell
- Electrolytically zinc plated
- Anti-slip rubber handlebar

1 MODEL 65 scooter

The practical stand is automatically folded out using the handlebars.
 With a practical basket as standard.
 Pneumatic tyres at front, rear wheel with grey, elastic rubber tyres and ball bearing hub.

2 MODEL 10 scooter

Sturdy driving characteristics with double skids.
 With basket, drum brake on front wheel as standard.
 Pneumatic tyres at front, rear wheel with grey, elastic rubber tyres and ball bearing hub.

3 MODEL 86 scooter

The shelves are 12 mm thick, are durable and laminated in light grey.
 Rubber strip around the platform frame and removable load frames. Effective foot brake for the rear wheel.
 This leaves both hands free for steering.
 Max. load 150 kg.
 The max. load bearing capacity of the shelf is 50 kg.
 Three wheels with grey, elastic rubber tyres and ball bearing hub.

4 MODEL 20 bicycle

The saddle and pedals ensure comfortable travel even on longer transport routes.
 Two wheels at the front with grey, elastic rubber wheels and ball bearing hub.
 Rear wheel with pneumatic tyre.
