Rotary filing systems

**Independently rotating levels –
Ø 800 mm or 1000 mm**

Rotary filing systems can store up to approx. 80 % more files than comparable shelf units.

You save space, time and money.

- Easy to rotate, quiet operation
- Mounted on ball bearings, easy to turn
- Max. load per shelf 80 kg
- Overall max. load 400 kg

The flexible model, ideal for use by several people. Every employee can move his or her shelves independently of the others. Free-standing unit, can be placed between two workstations or in a corner to save even more space.

Sturdy steel construction. Shelves made of coated chipboard.

A steel wire edge strip prevents files slipping out. The cover panel protects the files from dust.

Supplied flat pack – easy self-assembly.

Accessories

Castors

For more mobility. Max. load 300 kg. Castors increase the overall height by 80 mm.

Pack of 4.
